

Dear College Families,

RE: Changes to the collection and drop off zone at the College

Effective as of Monday, 18th October 2021, the location of the contracted before/after school bus service will move from Oakwood Avenue to within the College grounds. This is to provide a safer drop off and collection zone for our students and to allay traffic congestion along Oakwood Crescent.

These changes will not affect the bus timetable and students will need to follow the usual procedure when catching the bus.

Below is a map of the College showing the location of the new collection and drop off zone, which is located in the Staff Carpark on the corner of Gngara Drive and Oakwood Crescent. Access for the students is within the College boundary.

In the morning, students will exit the bus and make their way onto the College grounds by walking towards the STEM Building (M Block), then on to their classroom.

Location of new Bus drop off and collection.

Below is a map showing the location of the two buses in the afternoon.

Students who make their own way to the bus in the afternoon, can access this location via walking by the STEM Building (near M3) into the Staff Carpark. Lower Primary are welcome to meet outside the Uniform Shop and walk over together with a Duty Teacher.

If you have any queries regarding the bus service, please do not hesitate to communicate with us by sending an email to busservice@scbc.wa.edu.au.

Yours sincerely,

Matthew Robinson
Director of Finance & Operations
